

WILSON BREAKS HIS SILENCE

Since March 4 and Sends Memorial Day Message to the "Stars and Stripes"

(By Associated Press)
Washington, May 28—Woodrow Wilson broke today the silence he has maintained since he retired from the White House on March 4.

In a Memorial Day letter to the editor of the "Stars and Stripes," which was published today in that soldier periodical, he declared that the American people "shall not be able to enjoy the full pride of the Day's recollection; until we have made sure that the duties that grew out of the war have been fulfilled to the utmost."

"Are we sure?" he asked. "If we are not sure, we will not soon take steps to do whatever has been omitted?"

The full text of the former President's letter follows:

"Memorial Day has always been one of our most solemn and thoughtful anniversaries when we recalled great memories and dedicated ourselves again to the maintenance and purification of the nation, but this year it has an added and tremendous significance because the memories and sacrifices of the great world war are now among the most stimulating of the recollections of the day."

"We celebrate the immortal achievements of the men who died in France on the field and in the trenches, far away from home, in order that both our own people and the peoples across the seas might be delivered from the ugliest peril of all history. It is our privilege not only to indulge a high and solemn pride and grief for the heroes of that great struggle but also to rededicate ourselves to the achievements of the great objects for which that war was fought. We shall not be happy; we shall not be able to enjoy the full pride of the Day's recollections until we have made sure that the duties that grew out of the war have been fulfilled to the utmost."

"Are we sure? If we are not sure, we will not soon take steps to do whatever has been omitted?"

"Cordially yours,
"WOODROW WILSON."

"The work is organized for victory," Dr. Crockett declared, "and it is my honest opinion that the station that does not raise its quota will be the exception. This statement would almost apply to the circuits."

Dr. Crockett refers to the movement to be launched Sunday when Methodists throughout the south will strive to raise \$33,000,000 to strengthen the 91 institutions of learning of the Methodist church, \$520,000 of this sum being the quota of the Kentucky conference. Six Kentucky schools would benefit by the movement.

At one of them, Kentucky Wesleyan College, Winchester, the faculty and the students themselves have subscribed liberally already. Dr. Crockett announced that Bishop W. E. McMurry, Louisville, would address a mass meeting at Winchester the night of Sunday, May 29, the opening date of the appeal. He also gave assurance that Winchester and Clark county would raise \$125,000. Letters to 1,200 leading laymen this week will pledge them to work for success of the movement. Mr. Ball is now working on prospective large subscriptions.

'CREATION' RENDERED BY CAPABLE ARTISTS

Chorus of 100 Voices Shows the Thorough Training Under Dr. S. S. Myers

The rendition of Haydn's majestic oratorio, "The Creation," last night at Normal auditorium was an unqualified success and reflected the greatest credit upon Dr. Myers, its director, and all the participants. It was easy to recognize the task of preparation, the patience, perseverance, energy and enthusiasm necessary to its full equipment.

For the soloists there was heard only expressions of commendation and with the artistic and poetic quality was combined the reverent spirit of those who took part. The interpretation of these artists disclosed a perfect familiarity with oratorio form.

Mr. Reddick, considered among the greatest oratorio singers of America, with his pleasing enunciation, ease of execution, combined with the exquisite quality of voice, sustained the reputation which has been his for many years. His voice was displayed to best advantage in "In Native Worth," and in the recitative "In Rosy Mantle."

Miss Harriett Beecher Stowe the lovely lyric soprano, showed her artistic power in the well known "With Verdure Clad" and "On Mighty Pines."

Mr. Thuman, the baritone, handled his solo work with an intelligence which was adequate to the demands of the oratorio, and he trio was a marvelous combination of musical culture and education.

The chorus was equal to the parts assigned, ever alert and decisive, contributing in large measure to the admirable performance. Miss Telford, at the piano, the Misses Deatherage, Miss Josephine Telford and Mr. Leslie Evans in addition to the String Quartet, contributed a most effective accompaniment.

Dr. Myers is deserving of high honor and praise for this grand and impressive presentation, surpassing anything previously given at the annual festival, all of which has given to the State Normal prestige which cannot be overlooked.

Dr. O. O. Green's interpretative analysis of the oratorio contributed greatly to a fuller understanding and a greater enjoyment of its beauties.

FAMINE FUND WORK AT HALF-WAY MARK

Thomas W. Lamont, Chairman, Tells of Relief Administered and Task to Be Completed.

The American Committee for China Famine Fund, according to a statement issued by Thomas W. Lamont, chairman, has reached the second stage of its mission of mercy of sending funds from America to feed the millions of starving famine victims in the far eastern republic. At the lowest estimate, the statement says, just as much more is needed to carry "the last 5,000,000" through to the June harvest as has already been sent.

Mr. Lamont points out that quick response by America to appeals made by President Harding and his predecessor, President Wilson, has resulted in such prompt distribution of relief that the threatened magnitude of the famine has been checked to a marked extent. A continuation of the efforts so far made, it is declared, will place the famine relief for China among America's most effective philanthropies.

The Waiting Millions
There remain, however, the statement shows, a "last 5,000,000" to be saved, and these people can be saved only by continuous and voluminous relief resulting from American subscriptions.

The statement, in part, follows: "Quick response to the appeal of the American Committee for China Famine Fund gives us at the half-way point in our work the cheering assurance that the subscriptions from generous America already have served a great humanitarian purpose, inasmuch as relief already administered has held the famine in bounds and made it possible for America to save a multitude of human beings."

"Whereas early estimates made it seem that millions must perish, we now are advised that instead of the 15,000,000 who, it was originally feared, were doomed to death from hunger, relief at present in sight from all sources, American, Chinese and foreign, is sufficient to provide scanty rations until the June harvest for all except 5,000,000 people. These 'last 5,000,000' are destitute, according to our latest reports from the American Advisory Committee in Peking and are dependent for existence upon new help coming from outside sources, and this means America."

From All the People
"It is the earnest hope of the Committee that the number of contributions made as well as the aggregate will be such as to make our humanitarian gift, in a real sense, a gift of the American people as a whole."

"One way to make individual effort and generosity contribute toward saving China's starving population is for every one responsive to China's need, in effect, to 'pick a pal in China for a day.' The thought behind this special appeal in connection with the latter part of our effort will be for American men, women and children to choose, figuratively, a Chinese famine victim as a friend for a day and to send what they spend one day on themselves or an American friend to the China Famine Fund either through local committees, banks or churches or direct to Vernon Munroe, treasurer, Bible House, New York City."

"No American is so poor that he cannot save a life at the lowest rate ever quoted, one dollar a month. Life's quotations fluctuate, sometimes in one nation, sometimes in another, but the lower the quotation the greater the opportunity of humanity, the opportunity of human beings to save human life. China is far away—6,000 miles—but hunger is hunger, whether around the corner or beyond the Pacific."

"We appeal to America to make effective the work already done in checking the China famine disaster by saving until harvest those already saved from death."

MADISON HI DEFEATS STATE CHAMPIONS

(By E. T. Higgins)

Madison Hi took the measure of the Mt. Sterling Hi boys on the high school field Friday by a score of 6 to 3.

Sam Reid pitched sterling ball to the boys from Sterling Mount, fanning 23 and giving only two free tickets to first base. He was master of the situation at all times. In five of the nine innings he struckout all three men. At one stage of the game he struckout six straight men (the last man in the second, all three in the third, and the first two in the fourth). He allowed only four hits, all being clean ones.

Chambers led Madison in hitting with two smashing singles in three trips to the plate. Brock also collected two hits, a triple and a home run, but he was up four times. Both his hits were knocked out of the field, one in the air and one on the bound. His home run was the longest ever made on the hilltop diamond, carrying clear over the road on the other side of the left field fence.

Madison played errorless ball in the field and made only four assists due to the number of men struck out by Reid.

Kirk, the Mt. Sterling catcher, was hurt in the fifth because of standing too close to the wick-

Fewer Clothes the Better, Proclaims Dr. H. W. Wiley

Louisville, Ky., May 28.—Woman grows more beautiful as she grows older if she lives right, Dr. Harvey W. Wiley declared at the municipal auditorium in urging steps which would tend to produce in this country a race of old men and women who would become neither senile nor feeble. He urged eugenic marriages as well as the establishment of "a school of parenthood" in one university of each state. He advised also periodic physical examinations.

Maid and matrons would emulate Lady Godiva and moan their motor cars clad only in smiles if Dr. Harvey had his way, he said.

"Louisville with its four-garment women holds no shocks for me," he added thoughtfully. "I am a great believer in wearing no clothes, but as that condition is impossible, I maintain that the fewer clothes the better. High skirts and low bodies, bare throats and backs. These brevities are blessings of the age," he said.

HIT BY VISE FRAUDS

Travelers in Orient Are Victims
of Swindlers.

Favorite Means of Livelihood Among
Minor Officials—Also Practice
Money and Ticket Frauds.

Constantinople. — Swindling travel-
ers in connection with passport visas
has become one of the favorite means
of livelihood of minor officials in the
Orient and Balkan countries.

Mrs. J. H. K. Polly, wife of an
American business man living in Lon-
don, recently was a victim of this
fraud while traveling on the Orient
express, running from here to Paris.
When the train was passing from Bul-
garia into Serbia an official in uniform
representing himself as a Serb in-
spector, demanded to see her passport,
informed her that the visa obtained
at the Serb legation in Constantinople
was invalid and ordered her to leave
the train. After protestations, he con-
sented to accept \$35 to let her con-
tinue her journey. She had already
paid \$30 for visas of her passport.

Before leaving Constantinople many
travelers are obliged to give large
sums to get visas which later may be
declared invalid in this manner.

Since refugees from Russia are not
wanted in other countries, where they
may become public charges, few pass-
ports are granted them officially, but
they are furnished with proper papers
for sums ranging from \$20 to \$100. As
these refugees are poor, they are often
obliged to spend all but their travel-
ing expenses for visas.

Another form of swindle results
from the general European laws
against taking large sums of silver,
gold or paper money of a given coun-
try into another.

To prevent such traffic governments
place officials at frontiers, who de-
mand of each traveler the sum of for-
eign cash on his person. If he declares
anything above the equivalent of \$70,
or some such modest sum, it is taken
and a receipt given which he may cash
in money of the country on leaving it.

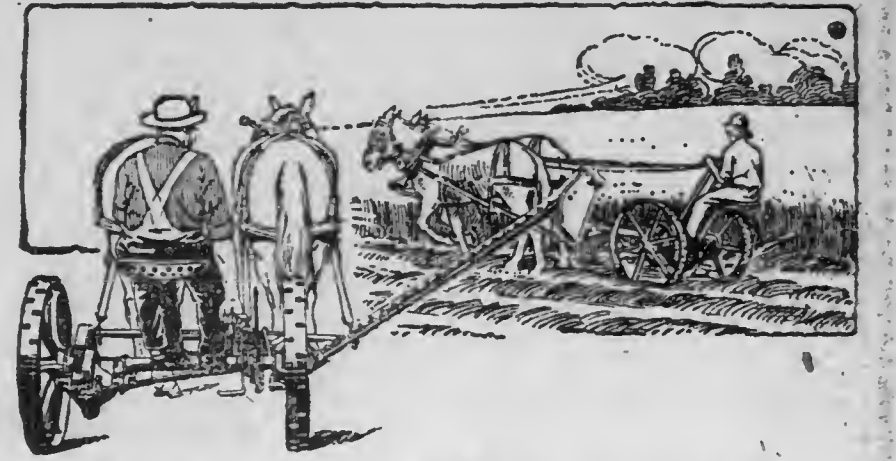

Sometimes the inspector merely pocket-
s the money, or will take a bribe to
let the traveler proceed with all his
cash.

Americans of experience have
adopted the plan of carrying only
checks or drafts and thus avoid this
annoyance.

The oldest form of travel swindle
takes the form of trains stopping due
to lack of coal. Then the train crew
plays cards until the passengers take
up a collection with which to buy coal.
This swindle has been improved upon.

An official takes up tickets and then a
second official, who denounces the first
one as a fraud, makes the passengers
pay a second time.

Talking all reports together,
there are going to be two win-
ters in the Dempsey-Carpentier
fight.

Why the McCormick Mower is Dependable

A BREAKDOWN during the rush time
of the haying season often means
considerable loss to you. It may delay
your cutting so that your hay becomes
over-ripe and loses part of its nourishment,
or it may prolong the haying season until
wet weather destroys a part of its feeding
value.

There's mighty little danger of break-
downs when you buy a McCormick
mower. It has no unnecessary parts to
wear out and give trouble. It has less
parts than any other mower. For years
and years the McCormick has been cele-
brated for its simplicity and durability.
It has given satisfaction to thousands of
hay growers. What it has done for others
it will do for you. Come in and let's talk it
over.

DARING RACE DRIVER TAKES NO CHANCES

"There's a difference between dar-
ing and foolhardiness in driving speed
cars," said Howdy Wilcox, who will
drive a Peugeot in the 500-mile dash at
the Indianapolis Motor Speedway,
Monday, May 30.

"There are a few drivers who will
continue to speed their mounts even
after they feel it giving way under
the terrific strain of the gruelling
long-distance race—but not me. I can
tell by the feel of a car whether it's
performing at its best and there is an
ever present premonition whenever
danger is lurking. When that time
comes I drive the car off the track. I
remember one short-distance race in
which I was leading with but a short
ride to victory when I noticed one of
my wire wheels weaving, showing
signs of weakness. I might have been
able to complete the race—and many
drivers would have kept right on giv-
ing the car the gun—but I drove it
into the pits. There is a small per-
centage of danger when everything is
performing with mechanical precision
—but when things begin to happen
that's the time. I want to be on the
sidelines."

And we might add that Wilcox won
the 1919 International 500-mile race
and is noted for his skill and finish in
driving.

School Bond Election

The children of Richmond are entitled to and have the right to demand a school building that meets all modern requirements; school rooms, equipment, and sanitation which shall be such as will give them every advantage, both in making it easy for them to acquire an education, and such as to insure their health, comfort and morals.

With this end in view the Board of Education employed competent architects, and the lowest estimate of the cost of such a building is \$110,000.00, using salvage from the old building. If the bonds are authorized, with the insurance collected, Twenty-Eight Thousand (\$28,000.00) Dollars, the fund will be available.

The Board in submitting the bond issue to the voters would not be sincere unless it stated its plans to accomplish the above purpose, which must be the earnest desire of every voter, black or white, rich or poor.

The Board proposes to erect a building upon the Madison High School grounds, which will accommodate both High School and grades of the white public schools—a building that will meet the requirements of a modernly equipped and up-to-date school structure. The ventilation, lighting and equipment will embody the very latest ideas; each grade will be a separate unit entirely separated from the other grades; toilet rooms will be on each floor that older children may use different toilets from the younger ones.

The location was selected because the old location was entirely inadequate. This lot only fronts Second street about two hundred (200) feet, and is surrounded on three sides by busy streets. The old foundation at Caldwell cannot be utilized without sacrificing the very object desired. A building upon the old site could not be arranged so as to meet the above essentials of a school building. After spending a large sum of money, Richmond would still have an antiquated building, one that would not do justice to her children, with no grounds for playgrounds except the streets, and no room for growth.

The Madison High School grounds offer a location unequaled by the grounds of any public school building in Kentucky. The grounds are as close to the courthouse as the old lot, and are as close to the school children, considering the children of the whole town, as the old lot. It contains seven and one-half (7 1-2) acres of superb lawn, perfectly drained, and is dotted with trees that it has taken more than a half century to grow. This location offers an unlimited opportunity for future growth and ample ground for separate play grounds both for boys and girls, and for children of different ages.

To verify the above description every voter should at once go upon and inspect both locations.

No voter, we earnestly hope, will be influenced by any motive except to provide adequately for the schools, or be controlled by any temporary advantage or disadvantage, real or imaginary, to herself or himself, in casting their vote.

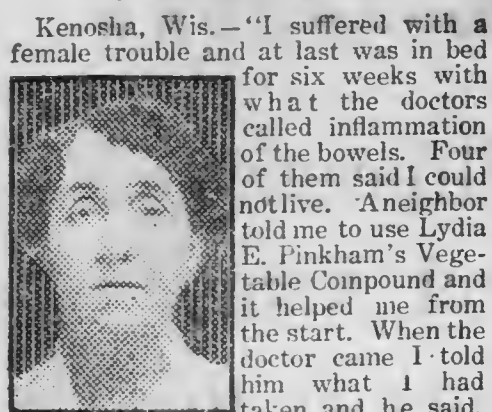

There will be a mass meeting at the courthouse at 7:30 p. m. Monday evening. The whole question will be thoroughly explained. Every voter is invited to attend this meeting, to express himself freely, and to aid in the formation of an organization whose sole aim will be to immediately take steps to provide a school building.

FOUR DOCTORS GAVE HER UP

Through a Neighbor's Advice This Woman Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Kenosha, Wis.—"I suffered with a female trouble and at last was in bed for six weeks with what the doctors called inflammation of the bowels. Four of them said I could not live. A neighbor told me to use Lydia E. Pinkham's Vegetable Compound and it helped me from the start. When the doctor came I told him what I had taken and he said, 'Throw my medicine away and keep on with the Pinkham medicine.' I did and it cured me. If more women would take your medicine they would not suffer so. I have recommended the Vegetable Compound to lots of people and they have been satisfied."—Mrs. MARY RHAPSTOCK, 2701 Wisconsin St., Kenosha, Wisconsin.

GOOD HEALTH HINTS

Oklahoma Farmer Gives Sound Advice on Avoiding Sickness.—Used Black-Draught 30 Years.

Cameron, Okla.—"I have used Theodor's Black-Draught for about thirty years, and certainly ought to know by this time what a good medicine it is," says Mr. T. L. Bostler, a well-known farmer of this place. Mr. Bostler has passed his three-score-and-tenth year, but declares his health still is good, "and I can say, Black-Draught did its part."

"Where there is a lot of malaria, a liver medicine is a necessity, and I have never found one better than Black-Draught," continues the Oklahoman. "It is one that I know to be reliable. I sure use it for the liver, stomach, constipation, indigestion, and it has done me a world of good. We use it for the family, and it gives satisfaction."

"Most trouble, or sickness, comes from the liver, and if taken in time can be avoided. That is why I use Black-Draught as I do. I am much pleased with results obtained."

Theodor's Black-Draught is purely vegetable. It acts on the bowels, gently stimulating the liver, and helps increase the normal flow of bile into the intestines. It assists in the digestion of food, and relieves constipation in a prompt and natural way.

KANATZAR HOUND IS FOUND IN LINCOLN

Mr. James Kanatzar, the well known fox hunter, is greatly rejoiced over the recovery of the fox hound he advertised for in the Daily Register several days ago. The dog was found by P. F. Prewitt, seven miles east of Stanford, Lincoln county, on the Crab Orchard pike, and was returned to Mr. Kanatzar. Mr. Kanatzar and Owen Million, are in Fayetteville, Tenn., this week attending a big meeting of fox hunters who are guests of J. H. Smith. They went there from Gallatin, Tenn., where they visited the plantation of Col. J. H. Branham, another dyed-in-the-wool fox hunter and all-round sportsman.

Messrs. J. C. Chenault and Horace Wells are in Mississippi on a visit to John Cabell Chenault's big plantation.

Vatter-Oetken Motor Co.,
Frankfort, Kentucky.

Gentlemen:—

I want most sincerely to testify to the dependable, satisfactory quality and service of the Studebaker Car which you sold me last September.

I have found the car to be most thoroughly dependable under trying conditions, as I have used it on long trips which had to be made on a schedule calling for speed and certainty. I have never been delayed by engine trouble; break-down of parts of the car or other similar troubles since I have used it. The car looks well; performs well, and especially is one of the easiest riding cars I have ever been in. Its equipment is satisfactory in every way and the whole car stands the strain of the road wonderfully.

I have been really delighted with the car as a dependable, satisfactory piece of machinery, which produces the results desired.

I can most earnestly recommend it as decidedly the best car on the market at anything approaching its price, and its performance is equal to any car.

Most sincerely yours,
Edwin P. Morrow
Governor.

FAIRVIEW CHURCH HAS A BIG DAY

The special day at Fairview last Sunday was enjoyed by a large crowd from the beginning of Sunday School in the morning until the benediction in the afternoon. The large house was well filled both morning and afternoon. The pleasure of the day was greatly increased by the solos of Bradley Kincaid, a Fairview boy, who has been attending Berea College for several years. "Bradley" is a fine young man and a splendid singer and the people of Fairview are always glad to have him back. Bro. Frank Tinder, of Kirksville, a former pastor, was present for the afternoon service and conducted the special service for the officers of the church in the afternoon. "Bro. Frank" is greatly loved by the people of this community and his presence added to the joy of the occasion.

Messrs. J. C. Chenault and Horace Wells are in Mississippi on a visit to John Cabell Chenault's big plantation. The afternoon was Rev. E. B. Bourland, of Lancaster. He delivered a very fine and appropriate message which was highly commended by the people present. The thought that prompted the observing of these special days at "The Grove" and at Fairview was to cause the people to realize what church membership means and to inspire them to give the Lord Jesus Christ a more vital place in their thoughts and affections. If they have served even in a small way to bring about this worthy aim, those who have contributed to these services are satisfied.—Lancaster Record.

Takes Gun To Shoot Crows; Accidentally Kills Self

Cynthiana, Ky., May 27.—Wm. Goebel Hedges, 20 years old, son of Leslie Hedges, accidentally shot and killed himself with a shot gun Thursday afternoon on the farm of his father at Kelat. The youth told his family that he was taking the gun to the field where he was plowing to shoot a crow. He later was found dead. The full charge of shot had entered his side under the right arm.

Marshall Howell came by. He trudged a heavy suitcase. "Want any help?" Mr. Hamilton asked. "No," Howell said. They both walked closely behind Mr. Howell was in a hurry. But the suitcase was heavy. He placed it on a curb at Second and Broadway. Then Mr. Hamilton showed his badge. "What you got?" Howell looked at the badge. Moonshine,

he said. Then he entered a plea of guilty before J. A. Craft, United States Commissioner. He bought the white whisky in Lawrence county, he confessed. Twenty-seven pints of it.

COBB IS HITTING IN OLD-TIME FORM

(By Associated Press)

Chicago, May 28.—Managing a ball club seems to be conducive to heavy hitting by Ty Cobb, pilot of the Detroit Tigers, and Tris Speaker, manager of the Cleveland Indians, are giving Harry Heilmann, of Detroit, a terrific fight for the batting leadership of the American League.

Cobb boosted his mark from .395 last week to .411 for this week, according to averages released today and which include games of last Wednesday, while Speaker raised his last week's average of .378 to .408. Heilmann, although he suffered a batting slump, is 14 points ahead of Cobb.

Severid, of St. Louis, also has come to the front in grand style. The slugging catcher of the Browns, who was hitting .309 a week ago, has attained a mark of .381 and is in fourth place.

Babe Ruth, the king of home run hitters, ran into a slump when the Yankees hit the western trail of the circuit. His batting average dropped from .378 to .345. The big slugger failed to get any four baggers while in Chicago but in the final game at St. Louis Wednesday, he cracked out a drive which was said to be the longest made at the Brown's park, and brought his total string of home runs up to thirteen.

Other leading batters for 20 or more games: Brower, Washington, .378; Sisler, St. Louis, .375; Tobin, St. Louis, .375; Stephenson, Cleveland, .363; Williams, St. Louis, .353; Ruth, New York, .345.

Grimes, of the Chicago Cubs, who, filling Merkle's place at first base, struck his batting stride during his first invasion of the east and climbed from 15th place to fifth in the National league batting race. Most of last week's leaders went into a slump. Roger Hornsby, the St. Louis star, dropping from .437 to .435. However, he is safely entrenched at the top of the batters of the National League who have participated in 20 or more games. Snyder, of New York, is runner up to Hornsby, with an average of .365 while McHenry, of St. Louis, who was in seventh place a week ago is batting .360 and is in third position. Maraville, of Pittsburgh who threatened to dethrone the St. Louis star a week ago dropped to fourth place with .359. Grimes, who a week ago hit .326, is pushing "Rabbit" with .358.

George Kelly, the New York Giants slugger, who is leading the National League home run hitters, failed to add to his total of eight and now is five behind his American League rival, Babe Ruth. Bohne, of Cincinnati, failed to increase his stolen base record. He leads however, with eight thefts.

Other leading batters: Johnston, Brooklyn, .356; Tierney, Pittsburgh, .352; Kelly, New York, .347; Barber, Chicago, .342; Haggrave, Cincinnati, .340; Cutshaw, Pittsburgh, .340.

Reb Russell, the old Chicago White Sox pitcher, who is playing in the outfield for Minneapolis, looks like the Babe Ruth of the American Association. The big southpaw, who took to outfielding after his arm refused to give the old ball the 4p, has batted himself up to a place among the leaders. In addition he bagged four home runs during the past week, and took the lead for circuit drives with nine under his belt.

Protect Your Porch Floors

It's strange but true that some people think any old paint will do for porch floors.

But it won't! The porch floor gets much harder wear than any other surface around the house. That's why it should be protected with a paint that will stand that wear.

Lowe's Porch Floor Paint will stand up under severe conditions because it's made for that purpose.

Yank Cows Held In

Quarantine In Germany

Berlin, May 28.—Cows donated to Germany by American farmers are being held in quarantine at Bremen. Experts say that blood tests have disclosed bacteriological bodies capable of transmitting Texas fever but that the animals "are otherwise in good health."

The Bureau of Animal Industry in Washington has held that the mosquito which transmits Texas fever infection does not exist in Germany, but the experts here have decided there is a possibility that mosquitoes were brought over with the cows and have recommended that the entire shipment be kept in communal stables in the large cities.

The German Red Cross, which is directing the distribution of the gift cows, has consented to this arrangement and milk from the cows is being distributed among the poor children of Bremen.

The situation, however, has against revived discussion of the advisability of donating cows to Germany, where there is such a shortage of food that native live stock is suffering.
